## To whom it may Concern.

**Re: Reference for Ainscaff Scaffolding**

Date: 22<sup>nd</sup> April 2015

Dear Sir / Madam

Shamrock Asphalt are a commercial flat roofing contractor, we have been employed by a number of direct clients over the past 25 years. In 2009 we were appointed as PSCS for a HSE project and required a scaffolding contractor. Simon Ainscough came highly recommended from a main contractor client. We contacted Simon to discuss the project, he came to site and provided an excellent design for a suitable scaffold to meet our needs. With the successful completion of this project we haven't looked anywhere else for scaffolding since using Ainscaff. They are reliable, cost effective and operate to the highest standards. We have employed them on some extremely complex projects with restricted access, public areas and sensitive buildings which include a number of Dublin City Council, Office of Public Works, HSE and manufacturing facility buildings.

We would without hesitation recommend Ainscaff Scaffolding for any scaffolding projects as their extensive experience and expertise on their field is unrivaled.

Should you have any queries please do not hesitate to contact me.

Sincerely Yours

Keith Proudfoot  
Technical Manager
